

EXCITING EMPLOYMENT OPPORTUNITY

AT ONE OF THE COUNTRIES PREMIER FARMS

FRASER FARMS – ABERDEEN, HUNTER VALLEY NSW

Wanting an energetic couple to start as soon as possible. Animal knowledge and skills are a necessity, milking 750 holsteins year round growing 100% of their own fodder from their 1800 acres of very highly productive Hunter Valley soil. Secure milk contract and 100% water allocations are a common occurrence. Couple would also have strong support from the Fraser family. Main duties include milking, animal husbandry, calving, heat detection and AI certificate would be preferable. Very rewarding package for the right couple with a nice homestead on farm.

For Type, Temperament and Total Performance
